Say Union and Non-union Men Find Justice.

Are Not Worried by Boycott of Federation.

Book Concerns Operate Only on Fair Basis.

(BY DIRECT WIRE TO THE TIMES.)
PORTLAND (Or.) Sept. 28.—[Exclusive Dispatch.] "We have refused to grant the closed shop in our publishing houses from principle," said Bishop Warren of the Methodist Church today in speaking of the action of the Oregon Federation of Labor in boycotting the Methodist church.

"Union and non-union men find employment on equal basis."

NEW YORK, Sept. 28.—The amendment to the State labor law prohibiting the employment of children under 14 in any line of calling or business after 7 o'clock p.m. will go into effect next Monday. The new law, it is said, will be vigorously enforced.

NEW YORK, Sept. 28.—A strike of the shipwrights employed in the port of New York is threatened on October 5 to enforce a demand for an increase of wages. The employers are preparing for a strike. Men are being hired at Norfolk, Baltimore and Philadelphia.

HIS THEME IS CORPORATIONS.

GARFIELD'S SON TALKS TO CLASS OF UNIVERSITY MEN.

Says That Although Trade Combinations Have no Conscience They Are Good Agencies and Their Destroyer Must Offer Something Better and Stronger in Their Place.

(BY THE ASSOCIATED PRESS—A.M.)
NEW YORK, Sept. 28.—James R. Garfield, Commissioner of the Bureau of Corporations of the Bureau of Commerce, addressed the class of students at the opening exercises of the University of New York.

James R. Garfield, Commissioner of the Bureau of Corporations, who addressed New York students on business problems.

School of Commerce, Accounts and Finance of the University of New York, last night said.

"The problems of business are no longer single. They are no longer the problems of the individual. They are the problems of the corporations. A corporation has great power—greater than that of the individual, and hence of greater responsibility. It is a creature of the State and should be controlled by the State. The individual is lost in the corporation. This loss of personal responsibility has resulted in the loss of character. Corporations do what individuals cannot."

"Despite this the corporation is a great agency for good. It is worse than useless to inveigh against corporations. The man who seeks to overthrow must have something to offer as a substitute. To destroy old corporations would be bad. It is for educated men to find out what is evil in the corporations of today, and to destroy it, and to make the corporations better and stronger."

PILOT ANSEL'S STORY.
BANKS FURNISHES STEWEN.
(BY THE ASSOCIATED PRESS—A.M.)
NEW ORLEANS, Sept. 28.—The latest news of the havoc wrought by the hurricane on the lower Mississippi River delta, was given by C. Ansel, a pilot who came up the river on the tugboat Charles Clark. Ansel said he saw the lower river banks strewn with household furniture of fishermen, but that most of these families had escaped from the high water by taking to their lumber rigged boats.

At the Mississippi River quarantine station, two houseboats used for the quarantining of crews of fruit steamers were sunk. The crews were taken off in safety, Ansel said.

PRESIDENT'S SON ARRESTED.

IS MEMBER OF CLASS WHICH ATTACKS POLICEMAN.

At Station He Is Released, on Explanation That He Was Merely an Onlooker—Is Taken in Custody on Boston Common—Police Commissioner Says Incident Is "Not Closed."

(BY DIRECT WIRE TO THE TIMES.)
BOSTON, Sept. 28.—[Exclusive Dispatch.] "Are you the President's son?" queried the police sergeant.

"That makes no difference; I'm just Theodore Roosevelt, Jr."

"What did you have to do with beating the policeman?"

"Absolutely nothing, nor did these men with me. We were onlookers. We didn't run because we were innocent. I would like to have helped the policeman."

"You are your father's own son," declared the sergeant, and Teddy, Jr., with three Harvard friends, left the station amid general handshaking.

Young Roosevelt, with other members of his class, came into town last night and were frolicking on Boston Common. A policeman objected to their antics and was knocked down, disarmed and severely beaten.

When reinforcements appeared, all the students ran, except four, who seemed not to be taking a part in the fight. Their arrest disclosed one of them to be the President's son.

Police Commissioner O'Meara, tonight declared that the incident is not closed. He said that the assault upon the policeman, who is now in a hospital, will be thoroughly investigated, and that Theodore Roosevelt, Jr., will be rearrested, and prosecuted if he is identified as a member of the attacking party.

Theodore, Jr., when seen tonight refused to discuss the affair.

LONDON'S HURT OUR WARNING.

IN ORDER to ascertain the cold facts as to the success or failure of the various government ownership and public trading experiments in Great Britain and other parts of Europe, The Times has commissioned Mr. S. Fred Hogue, one of its staff writers and an earnest student of municipal affairs, to visit these older countries and make a thorough investigation. Mr. Hogue is now abroad on this tour for The Times and is going to the fountain heads for information, like the trained journalist that he is.

The first article of the series to be written by Mr. Hogue will be printed in tomorrow's Times and will be a convincing exposé of the rottenness and graft attending the exploitation of union labor and socialist schemes in London, which is now dominated and harassed by trades unionism.

Most of the correspondents who have written on the faddist experiments of the London County Council and the trades unions, have been infected by the socialist virus to such an extent that they have not been able to give a candid and unbiased presentation of the facts. Mr. Hogue shows that these schemes are but a new form of the old Tweed ring's robbery and oppression of taxpayers.

Mr. Hogue's articles will attract attention all over the United States. He has the spirit and the methods of a keen and fearless investigator and his exposures of vicious practices at the Los Angeles City Hall have placed him in the first rank as a municipal expert.

His delineation of Bill Crooks and his laborite-socialistic ring, which now has the industries of London by the throat, will appear in tomorrow's Times.

OCCIDENTAL FORGES AHEAD.

Enrollment of Students is Far Greater Than Last Year—Reception Given.

The enrollment of students at Occidental College this year is far ahead of that of last year, 468 students having registered. 1. New pupils are coming in daily.

The college has made rapid progress in the past six years. In 1930 the total enrollment was eighty-seven in all departments. In 1931 this number was doubled, and since then there have been marked increases each year. At the close of the 1935 term, the names of 340 students were on the rolls.

The academy, which was not completed at the beginning of the term, is now being used. The study hall seats 210 students.

The basement of the extension that was built on the rear of the academy during the summer, will be fitted up for use as a gymnasium. Physical Director Cohen will form the classes as soon as the apparatus is installed.

The senior class gave a reception last night in honor of the freshman class, at the home of Mr. John A. Gordon on Pasadena avenue. The faculty and nearly all the students attended. The house was decorated with flowers and the colors of the classes. Harry Dukes, president of the upper class, welcomed the lower classmen to the college, and Benjamin R. Smith, the freshman president, responded. Mrs. Collette and Mrs. Werner of the music department rendered a musical programme.

AMENDMENTS TO CITY'S CHARTER.

REVISION COMMITTEE DECIDES ON PLAN OF PROCEDURE.

Drafting of New Clauses Will Be Entrusted to City Attorney Mathews—Salary of Engineer of the Owens River Project Is Increased and Disbursing Officer Is Appointed.

The Charter Revision Commission appointed by the City Council to draft proposed amendments to the municipal charter met yesterday in the Chamber of Commerce committee-room. They decided that the time given them for deliberation is too short to do much more than debate upon certain issues, and so it was agreed to entrust the drafting of several amendments to City Attorney Mathews.

One of the questions discussed by the committee was legislation on the carrying of freight by electric railways. Mathews was requested to draft an amendment fixing the privileges of the companies in the matter.

Relative to the question of a twenty-one-year limit on street-railway franchises, it was the sentiment of the committee to grant the request of the companies that any future franchise granted should have the same length of life as those of the connecting lines. It was agreed that where any line would connect with two other lines that the franchise should have the life of the one it expires the earlier.

The engineer of the Owens River project was thought to merit a raise of salary from \$340 to \$500 annually, and was agreed that the Board of Public Works should be allowed to make expenditures of bond money, and make contracts without the sanction of the Council in the same manner as the Board of Education and other similarly organized bodies.

A disbursing officer for aqueduct work on the Owens River was deemed a necessity, and provision for such officer will be advised.

It was agreed that all construction work of the city should be exempt from civil-service regulations, and that the Civil Service Commission should have the power to make such other exemptions as might be recommended by the heads of the departments and sanctioned by a two-thirds vote of the Council.

The committee will meet again at 10 o'clock this morning.

JEWISH NEW YEAR.

Services marking the end of the Jewish New Year holidays and the Day of Atonement will be held today at Temple Beth-El, 1111 W. 11th street. Dr. Hecht will speak on "Religious Revival," and in the afternoon he will deliver an address in German on "Four Questions Answered." At the same time, the Hebrew Union College Auditorium this morning Rabbi Myers is to speak on "The Mercy of God," and this afternoon on "The Captain's Question." Rabbi Werber will lead all-day services at Odd Fellows Hall on Main street.

Victor Records Practically Indestructible

We are in receipt of the following important announcement from the Victor Records Company: "We have just made a discovery—Recent VICTOR RECORDS improve with playings, and you will never wear them out. Take a recent VICTOR RECORD and see how many times you can play it without making any change in the quality of the reproduction. We have played a record one hundred times and found our most expert men by asking them to decide which was the best. This result has not been brought about suddenly, but constant improvement in methods and material has finally added the quality of indestructibility to the many VICTOR virtues."

SPOUTING WINE WILL ADD TO PROSPERITY.

From Many Ranches Come Processions of Fruit-Laden Wagons—The Pure Food Laws Mean Recognition for the Golden State.

CALIFORNIA is coming into her own with the grape-wine industry, and right now the growers and pressers are in the midst of what is undoubtedly the most successful and profitable season in the history of the State. In this county an enormous crop is being gathered, and bringing good prices. Wineries are running day and night, and new ones are springing up, including one million-gallon plant. Three million gallons of wine a year are shipped from this State.

Red wine is spouting from a hundred or more presses today. In ruddy streams it seethes and bubbles in the great vats. The "stinfadel" grape is king; next week it may be the muscat. From a thousand hill-sides throughout Los Angeles county processions of grape-laden wagons are starting in the early dawn to reach the great wineries before the heat of the day. From more distant ranges cars are backed on sidings and jammed full of the boxes holding the luscious fruit destined for the big wineries in and near the city. It is from the foothills and valley hill-sides as well as from the wash of the canyons that the best grapes for wine-making come. Today's grapes bring a higher price at the wineries than those from the lower slopes and flat lands nearer the sea. The reason for this is said to be that containing

Wagonloads of concentrated Southern California sunshine to be turned into wine. Such loads are coming in by the hundreds.

less moisture the highland grapes have a greater percentage of sugar. As foretold in The Times, the price of wine grapes is higher this year than for many years, the average being from \$16 to \$20 a ton, according to the percentage of saccharine matter they contain. It is the mountain valley grapes which command the highest price. The accompanying picture shows a wagon loaded with the fruit of the vine. The grapes are being gathered from the top of the boxes. Each box holds about sixty pounds of grapes, and there are seventy boxes on each wagon, or two tons.

A HARVEST AT LAST. After twenty-five years of waiting and hard work the California wine growers are coming into their own. The passage of the pure-food bill by the last Congress is the key to unlock the door that has barred the California wine man from securing the recognition of the consumer.

Under this new bill it will be no longer legal or possible for eastern merchants and hotel proprietors to purchase California wines and rebottle them under foreign labels. To use California wines the label must state where they are from and the credit that has for years been given to foreign wines will be placed where it belongs—upon the California brand.

As a result of placing this credit where it belongs, the wine growers of Southern California are preparing for a great advance in their business, and numerous new wineries are already planned for the coming year. Vineyards that have been permitted to deteriorate during the last few years are being closely pruned and plans made to again bring the stocks into productiveness.

The merchants argue that when the consuming public has been deluded into objecting to American wines, learns that the wine it has been drinking for the last ten years, under the belief that it came from France or Italy, comes in reality from the sunny slopes of the Golden State, a revolution of feeling will occur and a demand enormous in its extent, will arise for California wines.

READY FOR DEMAND. In preparation for this condition of affairs the Southern California Wine Company of this city, one among many others, has purchased a tract bordering on the Santa Fe tracks on the East Side, and will begin building a 1,000,000-gallon winery during the next two weeks.

The company at present has a winery located on the East Side, and work alone will enable the big crop to be handled. The vineyards of this company are located at Cucamonga. Hugo Goldschmidt, president of the company, who returned Thursday from a tour of inspection of the property, states that the yield will be greater than ever before. It is ex-

EX-BALL MAGNATE JAILED.

Smith, Man Who Made His Mark in History of National Game Booked as "Drunk."

Harry Smith, one of America's old-time baseball league magnates, is in the City Jail, booked as a common drunk. He had followed his wife across the continent after she left him because of his dissipation. He says she is living now on East Eighteenth street.

Baseball history once hinged on this man. In 1881 he was manager of the Pittsburgh National League team. In 1885 he managed the Chicago pennant winners. He trained John L. Sullivan in Madison Square Garden for his fight against Charley Mitchell. In the latter eighties he was sporting editor of the Cincinnati Enquirer. And then he began to travel the downhill road. Finally his wife left him. He traveled the width of America to win her love back again. Instead of getting this, he found a cot in the city prison.

Local baseball fans who have watched the game a long time remember Smith very well, and a number of them know him personally. They say that in his better days he was generous to a fault, and some of them will probably go to his rescue today.

QUARTETTE OF BOLD CRIMINALS CAPTURED.

Men and Boys in Gang Confess to Many Burglaries and Hold-ups in This City and Long Beach—False Beards, Keys and Clubs Utilized.

LIKE a "yellow-back" novel reads the story of the capture of two boy thieves and a pair of bold highwaymen who have terrorized some sections of the city. The boys are Willie Magee and M. Pontius, aged 14, and they have confessed crimes attributed by the police to old-time professional burglars.

The "tall and short" highwaymen are H. Magee and C. Smith, arrested a few hours afterward. The Magees are brothers. The two pairs of crooks are supposed to have worked in conjunction, according to police information. False whiskers, masks, jimnies, loaded clubs, and large, shiny revolvers were found at the Magee home.

Four desperate highwaymen and housebreakers, with records of many bold robberies, were captured yesterday by detectives, the criminals being Charles Smith and H. Magee, middle-aged men, and M. Pontius, and Willie Magee, aged 14 years.

The detectives wrung confessions from the quartette which showed that for months the four have been busy committing burglaries and highway robberies. The methods used by the lads were ingeniously clever, showing that they had been well instructed by the older members of the gang.

The boys were arrested yesterday morning, charged with housebreaking. Both have former police records. Through the arrest of the youths the detectives secured evidence facilitating the capture of Smith and H. Magee, an older brother of Willie Magee. All the cases against the latter are daring hold-ups and following their arrest, the police forced them to tell about their crimes.

Despite the recent statements of police officials that there were practically no cases of daring hold-ups and robberies, a greater part of the detective force has lately been working night and day to secure clues that would lead to the capture of the highwaymen infesting Los Angeles.

Long Beach was stirred last Tuesday by the daring hold-up of Harry D. Moore, a real estate dealer, in the heart of the city. The robbery occurred early in the evening when the streets of the beach city were crowded with citizens. Moore lost a valuable gold watch and considerable money.

Descriptions of a "tall and short" man were hurriedly wired to Los Angeles police, and after developments proved the highwaymen to be H. Magee and Smith, after robbing Moore the "tall and short" men took a car to Alamitos where they held up a special officer and robbed him of money, a revolver and two stars.

PISTOLS AND FALSE BEARDS. After returning to this city, Magee and Smith kept close to their homes. Their paraphernalia, consisting of sev-

eral sets of false beards, two large revolvers, two "jimnies" and a pair of loaded clubs, was stored in a shed at the rear of the Magee home at No. 123 Gless street.

In the vicinity of Winston and San Pedro streets, Detectives Zeigler and Hosack secured a trace of Smith and the elder Magee. The officers worked on the case steadily and were started Thursday evening to hear of the bold hold-up of C. W. Owens, by a "tall and short" man in front of Owens's home at No. 1613 Pleasant avenue.

Before the detectives had finished investigating this case they learned of the highway robbery of W. J. Lehman of No. 721 Bailey street. Lehman was returning home and when within a few blocks of his residence, was confronted by the bandits, who robbed him of some money. He gave their descriptions as a "tall and short" man.

From the officers it was learned that Smith and Magee were carefully bold in their last crimes. By means of information of persons suspecting them, by tracing clues and by the information gained from Magee's younger brother and young Pontius, the police finally arrested the men.

The boys confessed that they had entered the home of R. L. Fleming at No. 211 North Cummings street, at which place they secured some money, also the residence of Miguel Madrigal, at No. 251 Utah street, where they secured \$15.40, and the home of J. A. Mitchell at No. 381 Gless street, where they stole money and jewelry. A key to the Mitchell home was found on the lads.

After the detectives had "sweated" the youths and secured their confessions they sent them to the Detention Home. The boys were taken before Judge Wilbur, who liberated them on probation. Soon after they had been turned loose, the Magee boy learned of his brother's arrest and then went home and destroyed most of the robbers' outfits.

Smith's home was at No. 128 East First street, and Pontius lived at No. 147 Gless street. The police say the Pontius lad is the same boy who shot a Miss Pearson in a North Main street shooting gallery on August 23.

SIX O'CLOCK HORSE YANKS AWAY POSTS.

The hitching-post burglar that's been reported to the police.

THIS is the story of the punctual horse and the stolen hitching posts.

The police don't know whether they ought to have it or not. They are inclined to think they oughtn't. It came into being—this story—when people around began losing their hitching posts—mystery, new kind of crime, stealing hitching posts. But one day one of the thus-behave property holders found his favorite hitching post in the back yard of an itinerant gardener. He rushed to the police with his discovery.

When the police went to see the gardener, he joyously gave it up; he exhibited a collection of carefully saved-up hitching posts, and tearfully asked the police to please help him find their owners; he said he fears for his reputation.

His amazing explanation is that all his embarrassments and troubles are due to a horse with a strict sense of punctuality.

SOME REFUGEES WANT IT ALL.

SEEK TO GAIN POSSESSION OF BIG RELIEF FUND.

Shepard and His Association Plan to Divide Eighty Thousand Dollars. Hot Time at Meeting of Money Grabbers Last Night—Chamber of Commerce Will Hold the Cash.

"We want the money." This is the reason the 400 members of the San Francisco Refugee Association have for seeking to gain possession of the \$80,000 now in the hands of the special committee of the Chamber of Commerce which is looking after the welfare of the needy refugees from the northern city in Los Angeles.

The principle of "they need the money" is what is governing the distribution of these funds by Capt. F. Edward Gray, superintendent of the local relief work for the committee. The Chamber of Commerce, the Relief Committee and Capt. Gray have all had experience with M. H. Shepard, who, claiming to represent a select clique of refugees, demanded the money which was contributed for the relief of all sufferers by the fire and earthquake.

Recently Mr. Shepard applied to Assistant Secretary Gurley of the Chamber of Commerce, and said the money should be turned over to the Refugee Association and he was ready to take it right then. He thought this big sum should be used to set each member of the association up in business.

WANTED THE CASH.

"Well, how much will that take. Do you think \$100 each would be sufficient?" asked Mr. Gurley.

"Hardly as little as that," was the answer. "Do you think \$200 each would be enough?" asked the secretary.

"Yes, I think \$500 might be enough," said Shepard.

"But if each member of your association was to share equally how much would they get \$500? That would be \$200,000."

Mr. Shepard wanted to go before the committee and plead for the cash, but the committee turned him down and informed him that if any members of his association needed assistance they could go to Capt. Gray and would receive all the help necessary. That settled it. They wanted cash, not help.

Assistant Secretary Gurley said yesterday that of this fund, all that is

PROSPERITY IN GRAPES.
(Continued from First Page.)

A PICTURE OF PLENTY.
Up in La Cañada Valley are miles
of vineyards. Green acres surrounded
by sagebrush and cactus. At first
sight there does not appear to be any
grapes worth speaking of, but when
the trailing vines and there nestled
close to the parent stem, smothered in
leaves which keep the hot sun of
noontday from them, are great cool
clusters of purple grapes.
Along the lower slopes of the Sierra
Madre Mountains, of which Mount
Love is only one of a score of great
peaks, lies the home of the pale green
Muscat.
No irrigation is used to induce these
grapes to grow, yet they are luxuriant.
You may wade into their sea of green
leaves when, whirr! whirr! away goes
a flock of quail. The glistening
mountain peaks fascinate you. Far to
the east, over intervening dales bright
with cultivated fields and orchards,
lie beautiful Pasadena shrouded in
her mantle of brightness.
You stoop to pluck a bunch of luscious
fruit and straightway you are
faced to face with Mother Earth, the
perfume of the grape is in your nostrils,
cool hollows under spreading
vines invite you to crawl under their
protecting arms from all the
world—it is so quiet—with quails for
company.
Back in a thousand cities of the
East will go the machine and good
cheer gathered in the sunny valleys.
Then comes the rancher with his
family and whoever can be found to
help, and it is to pick, pick, as fast
as they can. Boxes are filled, loaded
on the wagons and when they start
for the long haul to the West Glendale,
Ftuna or other wineries.

FREAK OF A STORM.
Upon the lower slopes of the Ver-
dugo mountains are some great big
vineyards. One of them in Tuna
Cañon covers 160 acres. There was an
old winery in connection with the
vineyard once, but years ago it burned
down and now the grapes are shipped to
wineries in or near this city.
A curious thing happened to this
vineyard last spring. The grapes were
just forming from the blossoms when
one day there was a hailstorm, one of
those kind where the ice falls in
chunks. The only wonder is that the
crop was not entirely destroyed, but
as it is only about one and a half
tons of grapes will be gathered to the
acre instead of the average three or
four. It was the only vineyard hit.
Up in San Francisco the wine ex-
porters are insisting that each winery
shall give a guarantee of purity with
all its wine shipped to or through
them, as called for by the pure-food
laws.

The California Wine Association,
the Italian-Swiss Colony, Lodi and
Jacob and C. Schilling are insist-
ing upon this requirement. Local
wine-pressers say they are "glad of it."

Nikola Tesla's Nerve.
Nikola Tesla, the inventor whose
electrical apparatus is used in the
transmission of power from Niagara
Falls, is a strikingly handsome man of
46, tall, dark and typically Greek in
features. He possesses strength of will
to a remarkable degree and in proof
of the forcefulness of his nature the
following story is told: When a lad
of between 9 and 10, his father, a priest
of the Greek church, one day enter-
tained Nikola and his sister with the
story of how a martyr held his right
hand in the fire and unflinchingly
watched it until it was consumed. The
priest was full of admiration for the
bishop's courageous act, but his son
appeared unable to see anything par-
ticularly wonderful in such a perfor-
mance. His father laughed good hu-
moredly, whereupon the boy ran out
of the room and returned with a small
lamp. This he lighted and then holding
his index finger in the flame kept it
there until the flesh began to burn.
His audience begged him to desist, but
it was not until the finger was almost
charred that he withdrew it and blew
out the light.

few there are who do not know the dis-

seem foolishly unnecessary when we
realize it is due simply to ignorance of
the proper and simple remedy—HUN-

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

SUES FOR WAY TO ARROWHEAD.

TRACION COMPANY IN COURT IN SAN BERNARDINO.

Property Owner Agrees with Plaintiff on Value of Strip Desired but insists That There Shall Be No Telegraph or Telephone Wires or Electric Lines Along Way.

SAN BERNARDINO, Sept. 27.—

Tracion Company, which has been

suing the Superior Court by the

San Bernardino Valley Traction Com-

pany against John L. Hall to secure

right of way across his ranch north

of Arrowhead, is today in court

for the extension of the com-

pany's right of way to the Arrow-

head. The company asks for a

strip of way 150 feet in width, inter-

secting the ranch from east to west,

and about half a mile in length. The

value of the right of way is the

subject of the suit. The parties dis-

agree as to the conditions under which

the company shall acquire the right

of way, but the plaintiff insists that

the company shall not erect telegraph

or telephone lines or electric lines

along the strip. The company has

no intention at this time

of erecting any of these ob-

jects, but objects to any

such action on the part of the

company. The suit is now on for

the trial of the facts.

SANTA ANA'S NEW POSTOFFICE.

W. H. Spurgeon to Put Up Building for the Government—El Camino.

SANTA ANA, Sept. 28.—The bid of

W. H. Spurgeon to put up a building

for a new postoffice has been accepted

by the Postoffice Department at Wash-

ington. Mr. Spurgeon received a tele-

gram to that effect last night, and to-

day he began active preparations for

removing the buildings from the site

on Sycamore street, next to the alley

between Third and Fourth streets. The

contract for building Uncle Sam's mail

for the next ten years is interesting

on account of the fact that since the

Spanish-American war the postoffice

has been located, with the exception of

four years, when the location went to

C. E. French.

While the new postoffice will occupy

but one floor, the building will be two

stories. Mr. Spurgeon does not intend

to finish the second floor at this time,

but will wait until he has a tenant.

Mr. Spurgeon has had more to do

with the Santa Ana postoffice since its

establishment than any other man

alive. In 1871 he was appointed the

first postmaster, and for eight years

he gave forth the mail to the pioneers.

At that time the postoffice was in a

building that stood at the corner of

Fourth and Main streets where the

Gilman Block now stands. The building

was moved to the Crookshank

property Company corner, and from

there it was moved to its present

location. This is the history of the

moving, with the exception of the

four years in the eighties, when Mr.

Spurgeon was a location about

where Winslow's shoe store now is.

The rental of the new postoffice is

low, but nominal. The old postof-

ice was given to the government by

Mr. Spurgeon for \$1 a month. Mr.

Spurgeon figures that had he obtained

a fair rental, his buildings he has

given the government the use of

for practically nothing, the amount

would have run to \$35,000. Of course,

Mr. Spurgeon is the loser of the

amount, for by holding the postoffice

location, he has been able to hold his

tenants, and get better rental for his

buildings.

Just what the new postoffice will be

rented to Uncle Sam for, Mr. Spurgeon

does not care to say. He says this,

however, that the change, counting

what the government has to pay and

the rental he will receive from the

J. D. Ramsey of Santa Ana caught

a few days ago the wharf here yes-

terday weighing 342 pounds.

C. A. Barton left today for Wyom-

ing, where he goes to select a 160-acre

tract in the Shoshone reservation,

which he secured in drawing re-

cently held for this land.

H. A. Peabody, the Newport post-

master, has been appointed City Re-

recorder for the young town of New-

port Beach.

Miss Sallie Peabody, daughter of

Postmaster Peabody, was given a

shower yesterday by her lady

friends at the home of Mrs. E. G.

Glen of Santa Ana. Miss Peabody is

soon to be married to a Mr. Powell.

PIONEER CELEBRATES.

Birthday of Anaheim Man, Married

Over Half Century Ago, in Los

Angeles Is Noted.

ANAHEIM, Sept. 28.—A social event

of special interest here yesterday was

the celebration of the 50th birthday of

Theodore Rimpau at his home, corner

Palm avenue and Broadway. About

this event cluster some interesting

remembrances of early California days.

When a young man, Rimpau came

from his native Germany to Los An-

geles, where he won the heart of Miss

Francisca Arilla, a well-known

Spanish family, and was married to

her at the Plaza Church by Father

Sanchez, December 24, 1850.

The house in which he courted the

fair damsel, the one-story adobe next

to the electric building on Over-

street, near the Plaza, still stands, and

is owned by Rimpau heirs. Mr. Rim-

pau claims the distinction of being

the first foreigner to marry a Native

Daughter of California, and the two

are believed to be the first couple mar-

ried in California since that date.

They were born fifteen children, eleven

sons and four daughters. Two daugh-

ters and seven sons survive, all resi-

dents of Los Angeles and Anaheim. All

of these, with about fifteen grand-

children were present at the celebra-

tion yesterday.

Mr. Rimpau came to Anaheim forty-

one years ago, and has occupied his

time in various ways. His wife died

three years ago. He is still

in good health, and has yet to see his

first grandchild.
